

Georg Fischer Connectra LLC of Gainesville, Texas and Pipefusion Services Inc. of Huntsville, Ontario sign strategic alliance which establishes Pipefusion Services as the first **Fully Authorized Sales and Service Outlet** of Connectra fusion equipment in the Canadian marketplace.

“This initiative is a natural progression for Georg Fischer Connectra and Pipefusion and we are excited” said Ron Underwood, President of Connectra, who went on to say that the 2 companies have had a very close working relationship promoting Connectra fusion equipment sales in North America over the last ten years.

Under terms of the agreement, Jan Nyquist, owner of Pipefusion Services has agreed to maintain a significant stock inventory of Connectra fusion machines and parts in Huntsville, Ontario in order to better serve the Canadian marketplace for sales, parts and service of these products. Additionally, trained service technicians will be available at the Huntsville location to provide service repairs and warranty work as required to Georg Fischer Connectra fusion equipment for our customers here in Canada.

Jeff Lennox, National Sales Manager in Canada for Georg Fischer Central Plastics and the Georg Fischer Connectra Product Line was instrumental in putting the deal together. “All of us know and trust each other so negotiating this alliance was a natural step in the development of our collective market share growth initiative.”
